

May 23, 1930

Dr. E. R. Huckleberry,
Garibaldi, Oregon.

Dear Dr. Huckleberry:

We do not refuse cases outside of Multnomah County, but do not encourage them to come as most of the cases here require continued attention and we have no hospital for patients outside of the county.

However if the patient cannot afford to pay for a private consultant the doctors here would be very glad to examine the case and to send you their report on it.

Enclosed you will find a schedule of the clinics as they are now arranged. It is wise for patients to come as early as possible as the doctors can handle only a limited number of cases each day.

Very sincerely yours,
