

March 13, 1929

Dr. Richard B. Dillehunt,
Dean of Medical School,
University of Oregon,
Portland, Oregon.

Dear Dr. Dillehunt:

I am enclosing a statement which I have asked Miss Schreyer to prepare for you regarding the need for trained nursing service at the present time, here in the Dispensary and also the facts regarding the untrained nursing aids as obtained from Miss Humphrey. I have talked with Miss Phelps and have asked her to confer with you and Miss Schreyer regarding this whole subject at some early date which you may appoint.

Trusting some adequate arrangement may be made for the present need which will also be preparatory to and can be incorporated in the future enlarged plan for all nursing service under the Medical School.

Very sincerely yours,
