Dr. K. A. J. Mackenzie,
Chief of Staff of Physicians,
Portland Free Dispensary.

Dear Sir:-

I regret to inform you that the Dispensary is at the present time without a nurse in charge.

As you know, Miss Florence Baldwin, the regular nurse was obliged to resign her position and the temporary nurse which was supplied by the V. N. A. for ten days was withdrawn yesterday.

According to the terms of affiliation between the Peoples Institut and the Medical Department the Medical Department agreed to provide the necessary nurse in attendance for the Dispensary and I call your attention to the subject and inclose the correspondence relative to the affiliation that the matter of supplying another nurse may be attended to at as early a date as possible.

We trust the Medical Department may be able to make some further arrangement with the V. N. A. as it seems an admirable arrangement to have the nurse in charge under the supervision of the V. N. A. I also inclose copy of the second months work of the Dispensary which proves its splendid success.

Trusting you may be able to give this matter your immediate attention, and thanking you for your cordial interest and the valuable assistance you have given in planning the details of the Dispensary regime.

Yours very truly
