See page 20 History P. I. & F. D.

County Hospital built these

First Unit of Medical School

Origin of Doernbecher Hospital page 20 History P. I. & F. D.

New Building and Equipment

Provided by General Education Board of New York

See page 21 History P. I. & F. D.

Given to U of O Medical School for use of Free Dispensary or Clinic.

Maintenance for same promised by cooperating agencies.

Peoples Institute and Free Dispensary

Merge with Medical School Jan. 1, 1931

Free Dispensary moves into new building Feb. 1, 1931.

The same office force and nurses continue with the work.

The same routine of work continues on larger scale and with fine new equipment. All very happy in new environment after so many years in inadequate quarters.

78 Physicians gave of their service.

65 Junior League members assist in volunteer service.

and Maryotte Gengahon
The P. I. Executive Board becomes the Peoples Institute Auxiliary of the Medical School Clinic to assist in supplementary ways the work of the Clinic or Dispensary.

The P. I. Board feels a great sense of gratification in placing the work which they have built up thru these many years where it will be permanent, where it will be conducted under the best auspices and where it will continue to develop for all time. They feel that this Clinic is but the beginning of a great Health Center which will develop here in the future.
