Portland, Oregon.
March 13th, 1919.

Miss Valentine Prichard,
Free Dispensary,
4th & Jefferson Sts., City.

Dear Miss Prichard,

I am informed that the People's Institute are contributing to the work of the Dispensary at 4th and Jefferson Sts., and since there is available from the Government some funds that could be used by this Institution, I am writing to you, also to Dr. Mackenzie and Dr. Parrish who I understand are likewise interested in the clinic. To obtain this fund, certain requirements of the Government must be met with and I am rather anxious to have this settled so I may assist you as far as possible. If a meeting could be arranged whereby those of you who are interested could go into the details concerning these requirements, I should be very glad to meet with you upon the proposition.

Very truly yours,

Acting Asst. Surgeon.
