Dr. C.C.Pierce, Assistant Surgeon General

Bureau of Public Health Service,

Treasury Dept. Washington, D.C.

Dear Sir:-

I have answered your questionnaire as clearly as possible under the circumstances, but as we are a cooperative organization, I think this letter head may further explain our joint organization.

We also cooperate with the City Bureau of Health in the work of the Venereal Clinic, and I enclose the report of that work for the month of March.

We are glad to give all the aid we possibly can in this campaign.

Very sincerely yours,
