

April 9th., 1919.

Dr. A.C. Seeley,
Acting Assistant Surgeon,
Public Health Service, Portland, Ore.

Dear Dr. Seeley:-

I am enclosing the report of the venereal clinic of the Portland Free Dispensary for the month of March.

You will notice a decided increase in the number of patients over those of the previous month.

We have arranged to open the clinic three evenings in the week as soon as necessary and if there is anything further required to make this Dispensary eligible for Government aid, kindly notify us to that effect.

Very sincerely yours,
