2. Break your research question down into its key concepts. The number of concepts will depend on your research question, but let's focus on 3 for this exercise.

3. Brainstorm keyword synonyms for each concept.

4. Identify relevant MeSH terms for each concept.

Bonus: Identify MeSH subheadings (i.e., qualifiers) that describe key aspects of each concept.

Key words / synonyms:

MeSH terms:

MeSH subheadings:

Concept #1:

1. Enter the answerable question you developed in the previous exercise.

Answerable question:

Key words / synonyms:

MeSH terms:

MeSH subheadings:

Concept #2:

Key words / synonyms:
