

## Searching Exercise 4 Worksheet: Citation Management

Using a citation manager to create and format citations and a reference list

**Due Date:** May 26, 2021

**Name:**

Part 1: Read the following paragraph, insert citations where indicated, and generate a reference list beneath the *References* heading at the end of this worksheet.

These are the instructions for Part 1 of Exercise #4. Using a citation manager of your choice, please insert an in-text citation in AMA 11 format at the end of this sentence. Then, insert another citation at the end of this one. Next, insert a third citation at the end of this sentence. Finally, make sure there is a list of all three references you've cited beneath the *References* heading at the end of this worksheet. Depending on which reference manager you choose for this exercise, the list may be created automatically when you insert references into this paragraph or you may have to add it as a separate step.

Part 2: Reflect on your experience installing the tool and using it to create and format citations and a reference list.

Choose any of the following writing prompts:

- Which citation manager did you choose and why?
- Do citation management tools seem useful? Why or why not?
- What did and didn't you like about the tool you selected?
- Did you experiment with any features of the tool besides the ones needed for this exercise? Which ones?
- Will you continue using this tool, or do you think you might try a different one? Why?
